

Pathways to the Craft Workshop Series

Outline

- Lesson 1: Shifting Your Attitude
- Lesson 2: Taking Inspired Action
- Lesson 3: Finding Alignment & Clarity
- Lesson 4: Discovering Abundance
- Lesson 5: Affirming Your Path

A Different Picture of a Coven

A coven isn't just a circle of witches around a fire; it's a network of wisdom and shared experiences.

The true strength of a coven lies in its ability to share knowledge, making each member wiser and more powerful.

Applying learned knowledge is key; it turns theory into real-world magic and brings growth to the individual and the coven.

Our coven is a sanctuary where members support each other's growth, both spiritually and personally.

Our coven is not just about tradition; it's about creating a space where learning, practice, and community thrive together.

You have a path and purpose within our community where you can contribute to the growth of yourself and others.

In our coven, we hold two core beliefs:

1. This is your community, where you belong, are safe and can make a meaningful impact.
2. Magic is real. Regardless of how you view it or what you call the divine, magic is the bridge connecting us to something greater, and with practice, we can experience it every day.

Don't miss our next series: *The Witch Within* where you can discover who you are becoming and how to embrace your true magick.

Homework:

- Practice!
- Put the word out by sharing something you learned with someone you know and let them know where you found it
- Broadcast It by sharing something you learned on social media and tag @naturallymodernwitch
- Be Curious by commenting or emailing questions
- Join In public events
- **If you want to join our Storytelling circle reach out to me.** share your story or practice with a picture or story about what has changed since you joined the coven.
- **And if you want to join the Intention Circle** to hold space for others. Or, if you have an intention request and want us to hold intention for you, reach out.
